# Umer Farooq

## Certified Ethical Hacker & Penetration Tester | Android App Tester | API Pen-Testing | SIEM

☎ +923261149625  @ hackwithumer@outlook.com  🔗 https://www.linkedin.com/in/hackandsecurewithumer  📍 Faisalabad

## SUMMARY

Specialized in Vulnerability Assessments in Systems, Networks, and Applications. Experienced in security audits and resolving critical flaws for local and international clients, with skills in Python, Bash scripting, and advanced security domains like API testing through Postman and malware analysis. Passionate Bug Bounty Hunter committed to safeguarding assets and advancing cybersecurity practices.

## EDUCATION

**08/2020 - 08/2022**

Tandlianwala,Faisalabad

● FSC-Pre Medical
**Aspire Group Of Colleges**

## EXPERIENCE

**03/2023 - Present**

Remote/Freelance

● Penetration Tester
**Bugcrowd**

Bugcrowd is a leading crowdsourced cybersecurity platform that connects businesses with ethical hackers to identify and remediate security vulnerabilities

- Conducted detailed penetration testing to identify and exploit vulnerabilities in web applications, APIs, and networks.
- Submitted comprehensive vulnerability reports, including PoCs (Proof of Concept), for client review and resolution.
- Collaborated with a global team of ethical hackers to uncover critical security flaws in high-profile organizations.
- Ensured compliance with industry security standards while maintaining discretion and confidentiality.

**03/2023 - Present**

Remote/Freelance

● Penetration Tester
**HackerOne**

HackerOne is a premier vulnerability coordination and bug bounty platform helping organizations uncover security risks through ethical hacking.

- Performed in-depth security assessments of systems and applications to identify exploitable vulnerabilities.
- Engaged in bug bounty programs to uncover and report critical issues impacting client assets and user data.
- Automated recurring testing tasks using Python and Bash scripts to improve efficiency.
- Maintained an active role in identifying emerging cybersecurity threats and evolving attack vectors.

## SKILLS

### Advanced Security and Penetration Testing Expertise

| Penetration Testing | Network Security | Linux | API Pen Testing | IDS/IPS | Cloud Security |
|---|---|---|---|---|---|

### Security Tools Stack

| BurpSuite | Kali Linux | Frida | Nessus | Nmap | Wazuh | Postman |
|---|---|---|---|---|---|---|

## KEY ACHIEVEMENTS

◆ **Rewarded Hall of Fame and Cash Rewards From:**
LAAM Technologies, Switch Payment Gateway, Ecommerce Stores and Private Programs at Bug-crowd and HackerOne.

## CERTIFICATION

**Certified Penetration Tester**
Punjab Higher Education Commission

**Certified Ethical Hacker (CEH)**
Punjab Higher Education Commission

**Make In-house Hacking and Pentesting Lab**
EC-Council

**Android Bug Bounty Hunting**
EC-Council

**Diploma in Software Testing and Quality Assurance**
Institute of Management, Technology and Finance

**Bash Scripting**
Udemy

**Reverse Engineer .NET**
